ABOUT ME

Passionate and self-driven Software Engineer with over 3 years of hands-on experience in Flutter mobile apps, WordPress websites, MERN stack applications, and AI projects. Strong expertise in developing scalable, real-time systems and beautiful UI/UX designs. Successfully built live projects including mobile apps for restaurants, e-commerce stores, admin panels, and AI-based systems. Highly motivated to deliver quality solutions and grow in dynamic remote work environments.

WORK EXPERIENCE

SOFTWARE ENGINEER
SMART (PVT) LTD – TRINCOMALEE, SL.
Apr 2022 to Present

- Developed mobile and web solutions for local businesses.
- Delivered real-time food ordering app (Flutter + Firebase) live on Play Store.
- Managed full project lifecycle: development, hosting, client support.

SOFTWARE DEVELOPER INTERN (REMOTE)
CYBERWARDERS (PVT) LTD – JAFFNA, SL.
Jan 2022 to Aug 2022

- Created responsive WordPress eCommerce websites and admin panels.
- Handled cPanel setup, domain management, and live deployments.
- Designed UI/UX for client projects and branding materials.

SOFTWARE ENGINEER INTERN
KAYMU LANKA (DARAZ.LK) – COLOMBO, SL.
Apr 2021 to Oct 2021

- Worked on "KOKO - Buy Now Pay Later" project using Vue.js.
- Gained experience in agile software development and team collaboration.

PROJECT HIGHLIGHTS

- **True Lie Detection AI:** Built an LSTM-based real-time emotion detection system using FaceMesh.
- **Restaurant Mobile App:** Published a fully functional ordering app on Google Play Store.
- **Multiple Business Websites:** Delivered over 15+ WordPress sites and eCommerce platforms for SMEs.

Note: Available immediately for freelance, contract, or full-time remote roles.
